

NOTICE 27-2016: UPDATE – DELAY IN THE UPGRADE OF THE NAVIS TERMINAL OPERATING SYSTEM

July 9th, 2016

Due to unforeseen circumstances, there has been a delay in the upgrade of Navis Terminal Operating System Express/Sparcs. The switch over to the Navis Sparcs N4 Terminal Operating System did not take place on July 8th, 2016 as previously announced. This decision was taken so that the delivery of services to our valued customers would not be affected.

PLIPDECO will continue its efforts towards improving efficiencies by implementing the new system at a date to be announced in the near future. We thank you for your continued support and cooperation.

Sincerely

**Marketing and Business Development Department
PLIPDECO**
