

NOTICE 26-2019: PLIPDECO's Prospectus and Tariff for the Energy Sector

October 24th, 2019

In keeping with our commitment for the development of trade and logistics services provided at the Port of Point Lisas, please be advised that effective **November 1st, 2019**, the Point Lisas Industrial Port Development Corporation Limited (PLIPDECO) will be introducing a new tariff especially crafted for the Energy Sector. This tariff will be an extension to the standard port tariff and will only be applicable to bulk, break-bulk cargo and equipment to be used in the energy sector (*upstream, mid-stream and downstream oil and gas activities*).

The tariff structure is competitively priced taking into consideration market demand, the growing needs of the oil and gas industry and the provision of quality port services. The Port is strategically poised as a 'hub' to facilitate ancillary services to up-stream, mid-stream, downstream and all logistics support service providers of the energy sector.

We have attached for your information the tariff along with a prospectus for the services provided. This information is also available on our website www.plipdeco.com/energysector

Additionally, you can contact Ms. Shelly Balkissoon, Manager, Marketing and Business Development at Tel: 636-2201 ext. 3516 or sbalkissoon@plipdeco.com to further discuss this and other services such as warehousing.

Sincerely,

**Marketing and Business Development Department
PLIPDECO**
