

**NOTICE 01 - 2022: COMPROMISED ROAD CROSSING ALONG MARACAIBO DRIVE,
POINT LISAS INDUSTRIAL ESTATE**

January 2nd, 2022

Please be advised that the AUM/N2K Seawater Piping incurred a failure along Maracaibo Drive, Point Lisas Industrial Estate.

A leak has been detected at the road crossing, in the vicinity of Methanex Trinidad Limited's (MTL) main entrance where the piping runs under the road. Part of the road has been eroded and poses a safety hazard to vehicles and pedestrians. A barricade using cones and chain has been installed at the site to warn users of the hazard.

In the interim, we urge users to exercise caution when traversing the area until the issue has been rectified.

Thank you for your understanding and cooperation.

Sincerely,

**Marketing and Business Development Department
PLIPDECO**
