

NOTICE 25 -2021: NAVIGATING THE COVID-19 PANDEMIC

June 1st, 2021

PLIPDECO, like many companies locally and internationally, has not been immune from the challenges posed by the COVID-19 pandemic. As an essential service provider, we are constantly reviewing and updating practices and procedures in accordance with the Ministry of Health Guidelines and international best practice in an effort to mitigate the risk of exposure and contracting the virus.

Stakeholders can rest assured that we have implemented several measures to ensure the continued protection of all. Some of these measures include:

- Introduction of Antigen testing for employees
- Embarking on a Vaccination Drive for front-line employees
- Mandatory wearing of masks while on the Corporation's premises
- Temperature screening before access is granted to any part of the Corporation's premises
- Washing and sanitizing of hands requirements before entering any facility
- Prohibition of unnecessary congregation of persons in areas such as the Truckers Accommodation, Port, Car Park, Security Charge Room and LCL Warehouse
- Work from home arrangement for non-essential staff
- Continued sanitization of all areas throughout the day
- Continued practicing of social distancing among stakeholders

Stakeholders are also reminded that if you have tested positive for COVID-19, been in contact with a positive person or you are exhibiting flu-like symptoms, you should remain at home and not be conducting business at any of our facilities.

We wish to reiterate that all relevant precautionary steps are being taken to ensure the continued safety of all stakeholders. We are all in this together and must collaboratively and individually do our part by adhering to the strict Corporation and national protocols.

Sincerely,

Marketing and Business Development Department
PLIPDECO
