

NOTICE 34-2022: REVISION TO TARIFF RATES EFFECTIVE NOVEMBER 7th, 2022

September 6th, 2022

Following a comprehensive review, PLIPDECO has taken a decision to revise its current Tariff. This decision was influenced by the following:

- Increased cost of spare parts, equipment, shipping and services
- Prior and projected investments in equipment purchases
- Prior and projected investments in technology and systems
- Prior and projected expenditure in infrastructural repairs and upgrades
- General increase in the costs of doing business locally

We have made every effort not to pass on all increases to our customers but have absorbed some costs by increasing efficiencies and reducing costs in operations where practicable.

The Tariff can be accessed at [https://www.plipdeco.com/Tariff Update effective November 07-2022](https://www.plipdeco.com/Tariff%20Update%20effective%20November%2007-2022) - **FINAL**.

For your guidance, the following must be noted:

- Increases were not made in all areas
- Most of the increases were made under containerized cargo
- Some new Tariff line items were added
- For ease of reference, increases are highlighted in yellow, reductions are highlighted in green and new areas highlighted in blue

We thank all our customers and stakeholders for their continued support and wish to reiterate that the decision to make revisions to our Tariff was made after considerable deliberation.

To allow for the appropriate adjustments for customers, a two-month grace period is being given, hence the effective date of implementation will be November 7th, 2022.

Please feel free to contact our Marketing and Business Development Department at email info@plipdeco.com to address any clarifications you may require.

Sincerely,

Marketing and Business Development Department
PLIPDECO
