#### **Berthing Procedures**

#### 1.0 INTRODUCTION

The Port of Point Lisas is located in the Gulf of Paria halfway down the west coast of Trinidad, 32 km south of Port of Spain, in position 10°24.2'N, 61°29.6'W. Trinidad lies about 20 km north of Venezuela. Its location between North and South America allows easy convenient connections to all major shipping routes.

PLIPDECO owns and operates the Port of Point Lisas, which houses six (6) berths and approximately ten (10) logistics companies, together with statutory agencies, such as, Customs and Excise Division, Immigration Division, Port Health, and the Trinidad and Tobago Bureau of Standards.

PLIPDECO's Harbour and Marine Department coordinates all movement of vessels at the Port of Point Lisas by tracking arrivals at the Port, including those destined for the methanol, ammonia, urea and steel berths owned by the National Energy Corporation of Trinidad and Tobago (NEC). The department also provides mooring and unmooring services for the safe berthing/un-berthing of vessels.

This document therefore seeks to formalise the Operating Procedures for the Harbour and Marine Department's business operations and related activities.

#### **Berthing Procedures**

#### 2.0 BERTH APPLICATION PROCESS

#### **Port of Point Lisas**

1.1 All vessels calling at the Port of Point Lisas must be represented by a local Agent.

The Agent shall complete and submit via email, the online Berth Application Form which can be accessed **via the TTBizLink Portal** (www.ttbizlink.gov.tt) for vessels calling at The Port of Point Lisas (Berths 1, 1A, 2, 3, 4 and 5)

#### For new or non-regular callers

- 1.2 The Berth Application Form should be submitted **via the TTBizLink Portal** one (1) month in advance along with:
  - a) The Vessel's Tonnage Certificate
  - b) The Vessel's Estimated Time of Arrival and Departure (ETA & ETD)
- 1.3 The Marine Services Coordinator (MSC) shall notify approval of the Berth Application via a return email to the respective Agent and provide an Advance Deposit Notice

#### 3.0 SCHEDULING SUMMARY

- 1.5 The MSC creates and updates the schedule for vessels using information received from Agents and Savonetta Pier Coordinating Committee (SPCC) weekly plan.
- 1.6 PLIPDECO maintains an online Proposed Daily Schedule (PDS) which provides status of the vessel schedule. This can be accessed via PLIPDECO's website <a href="www.plipdeco.com">www.plipdeco.com</a> using the path (Services→Port Operations→PDS→Enter User ID and Password).
- 1.7 The Agent(s) shall provide the MSC with the information of any delays or otherchanges at regular intervals 72, 48, 24 and 12 hours in advance of ETA.
- 1.8 The MSC uses the updates provided by Agents and the Vessel Status Schedule toproduce the online PDS which displays a comprehensive schedule of all vessel movements at the Port of Point Lisas over the next twenty-four (24) hours.

Revision Date: 01-July-2021	Version 2.0	

#### **Berthing Procedures**

- 1.9 Through access to the online PDS, the Trinidad and Tobago Pilots Association (TTPA) is advised of times the Pilots are required and NEC's Representatives are informed of the type of tugs needs and the time required.
- 1.10The TTPA and NEC utilise and monitor the online PDS for vessel movements (Berthing, Un-Berthing and Shifting):
  - a) If there is an urgent change or update, the MSC would contact the Pilot at National Energy Corporation NEC via telephone or VHF radio via channel 16.
     The Pilots contact the MSC via radio or telephone advising of his arrival either Port Point Lisas or Yara Terminal.

## 4.0 BERTHING, SHIFTING & UN-BERTHING The Port of Point Lisas

#### 4.1 Berthing of Vessels

- a) The Vessel's Master shall be advised by the MSC via radio to proceed to the Pilot Boarding Station.
- b) The NEC tugs shall also proceed to the Pilot Boarding Station. NEC's tugs are requested by PLIPDECO in collaboration with the pilot, based on the vessel's length overall (LOA), draught and weather conditions.

#### 4.2 Shifting of Vessels

a) In the event that the vessel has to be shifted from one berth to another or un-berth to anchorage, Cargo Handling Operations Personnel (Manager, Cargo Handling, TOS and ATOS) shall advise the MSC at the daily Operations Meeting along with an email advising of such an event.

#### 4.3 Un-Berthing of Vessels

- a) The MSC receives information from Cargo Handling Management Operations representative and the Agents of the vessel status on its readiness.
- b) The MSC contacts the Master of the Vessel to prepare for the un-berthing.

#### **Berthing Procedures**

### 5.0 The SAVONETTA PIERS AND ISCOTT DOCK (SP1S, SP2S, SP3, SP4 and ISCOTT DOCK)

- 5.0 The Supervisor and the MSC or PLIPDECO's Harbour and Marine Department receive the final vessel schedule for all vessels operations at the Savonetta Piers at 1300 hours every Friday from the Secretary after the weekly SPCC meeting.
- 5.1 The Agent confirms vessel ETA with the Harbour and Marine Department via email to the Harbour and Marine Group account, <a href="mailto:harbourmanagement@plipdeco.com">harbourmanagement@plipdeco.com</a>. The MSC will update the online PDS and also contact the Pilots and NEC, confirming the vessel's ETA.
- 5.2 Any updates or changes must be approved by the Chairman, SPCC or his designate.

For changes at SP1 South, which is operated by Nutrien, the Nutrien designate has the authority to determine or change in the schedule of vessels at this pier. Any updates or changes must be sent immediately to the MSC via email to the Harbour and Marine Group account, <a href="https://harbourmanagement@plipdeco.com">harbourmanagement@plipdeco.com</a>

#### 5.3 TURNAROUND

- a) In the event of a request to turnaround a vessel at SP1 South from Starboard to Portside, a representative of Nutrien Control Room will submit an e-mail to PLIPDECO's Harbour & Marine group account, <a href="https://harbourmanagement@plipdeco.com">harbourmanagement@plipdeco.com</a> advising of same.
- b) A Letter of Indemnity signed by an authorized person at Nutrien should accompany such requests and this shall be sent via email to <a href="mailto:harbourmanagement@plipdeco.com">harbourmanagement@plipdeco.com</a> to expedite scheduling. The original letter (hard copy) must be delivered one (1) hour prior to the requested scheduling.
- c) A copy of the letter can be e-mailed to expedite scheduling; however, the original letter must be delivered to PLIPDECO's Harbour and Marine Department no later than one (1) hour before vessel movement.
- 5.5 The Agent will submit an e-mail to the Harbour and Marine Group account indicating readiness of the vessel for un-berthing.
