

**NOTICE 11-2026: UPDATE TO WEBTRACKER APPOINTMENT SYSTEM**

June 25th, 2026

Please be advised that the Webtracker Appointment System has been updated as part of our ongoing commitment to strengthening cybersecurity and protecting user information. As a result of these enhancements, users logging into Webtracker may receive the following notifications:

- A prompt to update their password.
- A prompt to review and update their account information, including their full name and email address.

These prompts will not restrict access to the system or prevent users from scheduling appointments. However, it is **mandatory** that all users complete these updates **by Monday 29th June, 2026** to ensure their accounts remain secure and aligned with current system requirements.

Maintaining accurate account information and strong passwords is essential to safeguarding user accounts and preserving the security, integrity, and reliability of the Webtracker Appointment System.

If you require any additional information or assistance, please contact the department listed below.

Department	Mainline (636-2201)	Direct Line/ Mobile	E-mail
