

NOTICE 08-2025: IMPORTANT NOTICE – CUSTOMS AND EXCISE DIVISION REQUIREMENTS FOR NVOCCs AT PLIPDECO'S LESS THAN CONTAINER LOAD (LCL) WAREHOUSE

February 11th, 2025

Please be advised that **with immediate effect** the Customs and Excise Division has implemented the following requirements for NVOCC's operating at the LCL Warehouse. These measures aim to ensure compliance with regulatory standards.

Requirements:

- NVOCC representatives must be present prior to the opening of containers for unstuffing at the LCL Warehouse. No seal will be broken without an NVOCC representative present.
- NVOCC representatives are required to ensure that they adhere to all safety procedures such as safety boots and high visibility vest.

Failure to comply with these requirements may result in delays for NVOCCs as their containers will not be opened by the Customs and Excise Division.

We appreciate your cooperation as we work together to maintain a compliant and efficient operation.

Sincerely,

**Marketing and Business Development Department
PLIPDECO**
