Point Lisas Industrial Port Development Corporation Limited

Statement of Management's Responsibilities

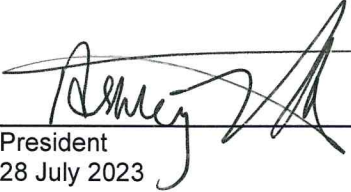

Management is responsible for the following:

- Preparing and fairly presenting the accompanying condensed consolidated interim financial information of Point Lisas Industrial Port Development Corporation Limited and its subsidiary (the 'Group'), which comprise the condensed consolidated interim statement of financial position as at 30 June 2023, the condensed consolidated interim statement of profit or loss and other comprehensive income for the three-month and six-month periods then ended, and the condensed consolidated interim statements of changes in equity and cash flows for the six-month period then ended, and notes, comprising significant accounting policies and other explanatory notes;
- Ensuring that the Group keeps proper accounting records;
- Selecting appropriate accounting policies and applying them in a consistent manner;
- Implementing, monitoring and evaluating the system of internal control that assures security of the Group's assets, detection/prevention of fraud, and the achievement of Group operational efficiencies;
- Ensuring that the system of internal control operated effectively during the reporting period;
- Producing reliable financial reporting that comply with laws and regulations, including the Companies Act; and
- Using reasonable and prudent judgement in the determination of estimates.

In preparing this condensed consolidated interim financial information, management utilised the International Accounting Standard 34, 'Interim Financial Reporting', as issued by the International Accounting Standards Board and adopted by the Institute of Chartered Accountants of Trinidad. Where International Financial Reporting Standards presented alternative accounting treatments, management chose those considered most appropriate in the circumstances.

Nothing has come to the attention of management to indicate that the Group will not remain a going concern for the next twelve months from the reporting date; or up to the date the accompanying condensed consolidated interim financial information have been authorised for issue, if later.

Management affirms that it has carried out its responsibilities as outlined above.

Report on review of interim financial information

To the Shareholders of
Point Lisas Industrial Port Development Corporation Limited

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Point Lisas Industrial Port Development Corporation Limited and its subsidiary (the 'Group') as of 30 June 2023 and the related condensed consolidated interim statement of profit or loss and other comprehensive income for the three-month and six-month periods then ended, and condensed consolidated interim statements of changes in equity and cash flows for the six-month period then ended and notes, comprising a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, 'Interim Financial Reporting'.

Notes to the Condensed Consolidated Interim Financial Information

30 June 2023

(Expressed in Thousands of Trinidad and Tobago Dollars)

1 General information

The Corporation was incorporated on 16 September 1966 under the laws of the Republic of Trinidad and Tobago and has a primary listing on the Trinidad and Tobago Stock Exchange. Its registered office is located at PLIPDECO House, Orinoco Drive, Point Lisas Industrial Estate, Point Lisas, Couva, Trinidad, West Indies. The Corporation Sole (Government of the Republic of Trinidad and Tobago) is owner of 51% of the issued share capital.

Point Lisas Terminals Limited, a wholly owned subsidiary, was incorporated in the Republic of Trinidad and Tobago in 1981 and is involved in the supply of labour to the parent company for its cargo handling operations at the port.

This condensed consolidated interim financial information was approved for issue by the Board of Directors on 28 July 2023.

This condensed consolidated interim financial information was reviewed, not audited.

2 Accounting policies

a. Basis of preparation

This condensed consolidated interim financial information for the three-month and six-month periods ended 30 June 2023, has been prepared in accordance with International Accounting Standard 34, 'Interim Financial Reporting'. The interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2022, which have been prepared in accordance with International Financial Reporting Standards (IFRS).

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the adoption of new and amended standards as set out below

(i) Historical cost convention

This condensed consolidated interim financial information have been prepared on a historical cost basis, except for the following:

- the revaluation of land, buildings and own site improvements – measured at fair value,
- investment properties – measured at fair value,
- financial assets at fair value through other comprehensive income – measured at fair value, and
- defined benefit pension plans – plan assets measured at fair value.

(ii) New standards, amendments and interpretations adopted by the Group

A number of new or amended standards became applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards.

(iii) New standards, amendments and interpretations not yet adopted by the Group

There are no standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

3 Estimates

The preparation of condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2022.

The areas involving significant estimates or judgments are:

- Estimation of fair values of land and buildings and investment properties – Notes 5 and 6
- Estimation of retirement benefit pension obligation – Note 7 a.
- Estimation of casual employee retirement benefit – Note 7 b.
- Estimation of forward looking assumptions under IFRS 9
- Estimates in the assessment of impairment of property, plant and equipment.

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

Impairment assessment of non-financial assets of the Group

Estimates are required in determining the recoverable amount of assets to assess whether an impairment exists. The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs of disposal and its value in use. An asset is impaired when its carrying amount exceeds its recoverable amount. IAS 36 'Impairment of non-financial assets' describes some indicators that an impairment loss may have occurred. If any of those indicators are present, the Group will make a formal estimate of recoverable amount. At the statement of financial position date, the market capitalisation of the Group was significantly less than the net assets of the Group. As such, management determined that an impairment assessment was required to determine if the net assets of the Group were impaired.

4 Financial risk management and financial instruments

a. *Financial risk factors*

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The condensed consolidated interim financial information do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the Group's annual financial statements as at 31 December 2022. There have been no changes in any risk management policies since the year end.

b. *Liquidity risk*

Compared to year end, there was no material change in the contractual undiscounted cash outflows for financial liabilities.

c. *Fair value estimation*

To provide an indication about the reliability of the inputs used in determining fair value, the Group classifies its financial instruments into the three levels prescribed under the accounting standards. An explanation of each level follows.

4 Financial risk management and financial instruments (continued)

c. Fair value estimation (continued)

The following shows the Group's financial assets measured and recognised at fair value at 30 June 2023, 30 June 2022 and 31 December 2022 on a recurring basis.

	Level 1	Level 2	Level 3
	\$	\$	\$
As at 30 June 2023			
Financial assets at fair value through other comprehensive income	1,571	--	--
As at 30 June 2022			
Financial assets at fair value through other comprehensive income	1,672	--	--
As at 31 December 2022			
Financial assets at fair value through other comprehensive income	1,771		

The different levels have been defined as follows:

- The fair value of financial instruments traded in active markets is based on quoted (unadjusted) market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.
- The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

There were no transfers between levels during the period.

d. Fair value of financial assets and liabilities measured at amortised cost

The fair value of the following financial assets and liabilities approximate their carrying amount:

- Financial asset at amortised cost
- Trade and other receivables
- Cash and cash equivalents (excluding bank overdrafts)
- Trade and other payables
- Borrowings

The Group's investment properties were valued at 30 June 2023 by independent professional qualified valuers, Raymond & Pierre Chartered Valuation Surveyors, who hold a recognised relevant professional qualification and have recent experience in the locations and segments of the investment properties valued. A full valuation report is received as at the end of the financial year and a summary report is received at the end of each quarter.

The Group's Finance department reviews the valuations performed by the independent valuers for financial reporting purposes. This department reports directly to the Vice President of Business Services. Discussions of valuations processes and results are held between the Vice President of Business Services, the Estate department, the Finance department and the independent valuers at least once every quarter, in line with the Group's quarterly reporting dates.

At each financial reporting date the Finance department:

- verifies all major inputs to the independent valuation report;
- assesses property valuation movements when compared to the prior valuation report;
- holds discussions with the independent valuator.

6 Investment properties (continued)

The market value represents the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion. For all investment properties, their current use equates to the highest and best use. The valuation is based on both the Income Method for leased properties and Market Approach for land.

Under the Income Approach Method, the estimated net rental income from a property by a year's purchase (multiplier) is calculated to arrive at a capital value for the property. The net income is derived from an estimated gross income less outgoings i.e. rates, insurance, repairs and management allowance. The present value is obtained by discounting at the risk free rates of 2.5%, 3.5% and 5%. The valuation for the 30 year leases also assumes that all tenants have renewal clauses in their current leases which will extend the lease for an additional 30 years. Under the Market Approach Method, the sales of comparable acreage of the properties are analysed to determine a value for the leased land under consideration.

The following table analyses the non-financial assets carried at fair value. The different levels have been defined as follows in Note 4c.

Fair value measurements using

	Level 1	Level 2	Level 3
	\$	\$	\$
As at 30 June 2023			
Recurring fair value measurements			
- Investment Properties	--	--	2,274,255
As at 30 June 2022

- Investment Properties	--	--	2,233,675
As at 31 December 2022			
Recurring fair value measurements			
- Investment Properties	--	--	2,243,705

There were no transfers between levels during the year.

Level 3 fair values have been derived using the Income Approach Method for leased properties and Market Approach Method for land. Evidence of arm's length open market transactions of similar lands were analysed and the results applied to the subject lands after taking into consideration appropriate adjustments for location, size and other relevant factors. The most significant input into this valuation approach is future rental cash inflows based on the actual location and quality of the properties and supported by the terms of any existing leases and market prices of land.

The methods used in the valuation of land, building and own site improvement have been classified as level 3 as the inputs used in the methods are not readily available to the public and assumptions applied are based on the experience and judgment of the valuers prior to being reviewed and adopted by Management.

11 Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the President and the management team, which is the team responsible for allocating resources and assessing performance of the operating segments and is also responsible for making strategic decisions. The Group's executive management team, consisting of the President, the Vice Presidents of Business Services, Port and Technical, examines the Group's performance from an operations perspective and has identified two reportable segments of its business.

- (i) Port operations – This covers services supplied for the import, export and transshipment of containers and general cargo. The fees for these services include handling charges, storage rents, stuffing/unstuffing and other miscellaneous services. These are all based on an established tariff.
- (ii) Estate operations – This covers operations involved in the development, maintenance and supply of onshore infrastructure which are leased to tenants at contracted rates as charged for occupancy, wayleaves and common service charges.

These are the reportable segments of the Group as they form the basis used by the President and management team, as the chief operating decision makers, for assessing performance and allocating resources.

These reported segments are closely integrated as the viability of one segment depends on the continued operations of the other. As such, the operation comprises one cash generating unit, which is taxed as one unit and for which other expenses do not relate entirely to one segment.

(a) The Group has approved bond facilities with First Citizens Bank of \$3,000, with Scotiabank Trinidad and Tobago Limited of \$5,700 and with Republic Bank Limited of \$2,000.

(b) The bonds held with Scotiabank Trinidad and Tobago Limited are secured in the amount of \$3,200.

(ii) The Corporation is a party to various legal actions. In the opinion of the directors, after taking appropriate legal advice, the outcome of such actions will not result in any significant additional liabilities. Provisions have been made in this condensed consolidated interim financial information, where applicable.

(iii) The Property Tax Act of 2009 (PTA) was enacted into law by the Government of the Republic of Trinidad and Tobago (GORTT), effective from 1 January 2010. There were challenges with its implementation and GORTT implemented waivers of the tax, the last of which expired on 30 September 2017. At present, there is a Tax amnesty granted by the GORTT for the period 14 November 2022 to 31 August 2023. The PTA has not yet been enforced primarily due to non-completion of property valuations by the statutory authority and assessments not being sent to taxpayers. While a present obligation exists, taxpayers are unable to reliably estimate the liability as the basis for fair value at this time has not been clarified.

16 Subsequent events

Subsequent to the period end, there were no events requiring adjustments or disclosures.

17 Impact of Russia's invasion of Ukraine

On February 24, 2022, Russia launched a full-scale invasion on Ukraine. The invasion has and may continue to have a substantial impact on the several industries which can impact global imports and exports as well as international energy prices.

Capital markets are reacting to the economic effects of economic and other sanctions, which included a material increase in commodity prices, which could add to already high inflationary pressures, challenging efforts by the global central banks to curb inflation.

While the Group does not have operations in Russia and Ukraine, the extent and duration of the impact of the invasion, including the resulting sanctions levied against Russia, on global and local economies and financial markets is uncertain and ever evolving and has the potential to adversely affect the Group's operations.
